

Song without Fear Colleen Kattau / Adapted from Canción sin miedo Vivir Quintana

May the State tremble, the heavens, the streets
May they be afraid, ICE and police
They have spread hatred, fear & terror
Stolen our peace, but we grow strong together

Every minute of every week They kidnap our loved ones off the street
Invade our homes, take away friends We will say their names, our cities defend

For all of you marching in Minnesota
For all of us with you the whole world over
For all of the tortured all of the children
For all of the people caged in their prisons

We will have justice, we sing without fear
We cry for each one of us who's disappeared
Shout it out strong, we want us alive!
Tear it asunder, Abolish ICE.

We know that racism is nothing new
ICE are the thugs of the white wealthy few
We will not be silent. It's you who will fall.
When you hurt one of us you hurt us all.

I am Alex, Renee, Victor, Delvin, Keith
I am Oscar, Nenko, Fouad, Luis
I'm Francisco, Leo, Isiidro, Hasan, Huabin
I am Johnny, Juan, Pankaj, Ramesh, Maksym
I am the child you took by force. I am every mother's daughter

And I'm the one who will not obey your racist order Justicia ...!

For all of you marching in Minnesota
For all of us with you the whole world over
For all of the tortured all of the children
For all of the people caged in their prisons

We will have justice, we sing without fear
We cry for each one of us who's disappeared
Shout it out strong, we want us alive! Tear it asunder, Abolish ICE.

May the centers of the earth tremble To the sonorous roar of love
